THE DARK SIDE OF ECLIPSES

Do the Heavens Still Issue Warnings of Things to Come?

The Holy Bible tells us the lights in the heavens were given to mankind for "times and for seasons." Nothing seen in the heavens is more dramatic than a total eclipse of the Sun. Indigenous people as well as the ancient Greeks believed they predicted dire events. But then modern science came along and labeled astrology "myth and superstition."

Nonetheless, astrology tells us when an eclipse path of visibility crosses a country its symbolism prognosticates division. *Exactly what happened to*

America following the 2017 eclipse. In October 2023 another eclipse took a swipe at the U.S. and a third one on April 8 2024, the three paths creating two ominous Xs.

Has God had enough?
